

Support, Protecting & Mounting Air Source Heat Pumps MITSUBISHI ELECTRIC - ECODAN

FLOOR MOUNTING

The *flexi* Lite Kit has been specially design with a light weight slab with anti vibration blocks. This kit provides free airspace below the unit to assist with air flow. The flexibility of the kit allows the heat pump installer to position the slab in the correct place themselves with minimum ground works.

Model	Capacity	Option
PUHZ-W50	5 kW	FLEXI LITE-KIT (FF-UC-3)
PUHZ-W85	8.5 kW	FLEXI LITE-KIT (FF-UC-3)
PUHZ-HW112	11 kW	FLEXI LITE-KIT (FF-UC-3)
PUHZ-HW140	14 kW	FLEXI LITE-KIT (FF-UC-3)

WALL MOUNTING

These ready-made, flat-packed brackets offer a quick and easy method of supporting Air Source Heat Pumps on external walls.

If the unit is wall mounted, linking the condensate drainage to an existing drain via a drip tray when fitted to wall mounted brackets is an option.

Model	Capacity	Bracket Option	Additional Tray Option
PUHZ-W50	5 kW	CBR2-L	CCTM-800
PUHZ-W85	8.5 kW	CBR2-XL	CCTM-800
PUHZ-HW112	11 kW	CBR2-XL	CCTM-800
PUHZ-HW140	14 kW	CBR2-XL	CCTM-800

PROTECTION

With heat pumps being located outside it may exposed to accidental damage or vandalism. This damage can result in complete loss of heating or hot water. The guards are designed for a one person assembly and are wall mounted to ensure the unit, associated pipe work and electrics are fully protected.

The guards can also be free standing for units which are mounted away from a wall, this is done by simply supplying an additional back panel.

Model	Capacity	Guard Option	Free Standing Guard Option
PUHZ-W50	5/6/7 kW	CG-750M	CG-S + CG-FPS
PUHZ-W85	8.5 kW	CG-750M	CG-M + CG-FPM
PUHZ-HW112	11 kW	CG-900L-INV	CG-900L-INV + CG-BP900L
PUHZ-HW140	14 kW	CG-900L-INV	CG-900L-INV + CG-BP900L
